

Announcement

Assistant Professor in Planetary Geophysics, Washington University in St. Louis. The Department of Earth and Planetary Sciences at Washington University in St. Louis invites applications for a tenure-track assistant professor position in planetary geophysics. We seek candidates who apply modern computational, experimental or observational techniques and demonstrate or show promise of excellence in both research and teaching. Research areas may include, but are not limited to, deformation of rocks and ices, tectonics, volcanism, planetary formation and evolution, and remote sensing of geodynamic parameters of the Earth and other planets. A successful candidate will be responsible for teaching undergraduate and graduate courses in planetary geophysics and other topics in the area of his or her expertise. Candidates must have a Ph.D. in geophysics, or a related field, at time of appointment, and should send a letter of application, curriculum vitae, statement of teaching and research interests, and names and contact information of at least four references to Prof. Slava Solomatov, Search Committee Chair, Washington University, Campus Box 1169, 1 Brookings Drive, St. Louis, MO 63130, or via e-mail: facsearch@levee.wustl.edu. Women and minorities are encouraged to apply. Washington University is an equal opportunity/affirmative action employer. Employment eligibility verification required upon employment. Applications will be considered until the position is filled, but priority will be given to those received by December 31, 2008.
