

1 Post-doctoral scientist (0.5-4.5 years) position

Senior Research Fellow Center at Ehime University, Japan invites applications for a Postdoctoral scientist in the area of experimental mineralogy. Place of work for the position is Geodynamics Research Center (GRC) at Ehime University.

We seek an experienced and highly motivated candidate with an interest in the transport properties (including rheology, element diffusion) and the elasticity of Earth materials under high pressure and high temperature conditions. A doctoral degree in geosciences, physics, chemistry or a related-field is required. Experience in high-pressure experimental techniques is desirable.

The position is an appointment until March 31, 2009 with opportunity to renew up to March 31, 2013 and it is to be filled as soon as possible. Salaries are 4.0 million JPY-4.5 million JPY per year (tentative). For further information, please contact Yu Nishihara (Senior Research Fellow at Senior Research Fellow Center, Ehime University from November 1, 2008).

Application should send a CV, a short statement of experience and research interest and the names and addresses of 2 references to Yu Nishihara (yu@geo.titech.ac.jp).
